CUSTOMISING OUR SERVICE FOR YOU

**PERFECTLY PLANNED
PERFECTLY PACKED**

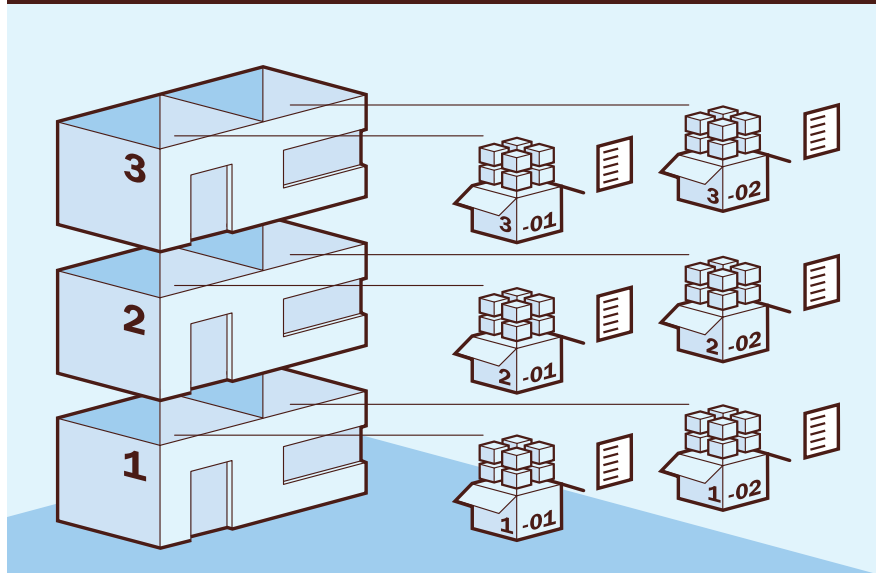

CUSTOMISED AND SOPHISTICATED PACKAGING SOLUTIONS

PERHAPS YOU ARE PLANNING AN EXTENSIVE ELECTRICAL INSTALLATION INVOLVING 400 ROOMS AS PART OF A MAJOR PROJECT...

Wouldn't it be great if you had one package assigned specifically for each room, containing all of the articles to be installed in that room? With labelling, a packing list and the room number? This would save you time and resources and also help avoid complaints later on.

ROOM-SPECIFIC PACKAGING AND LABELLING

Customised packaging solutions

Merten can offer a suitable solution for every customer requirement. Our customised packaging service can help save both time and money on installation for major building projects. Your installation partners will appreciate the room-specific packaging and labelling – which can be in the local language if desired.

Packaging and shipping to the building site

Our Service Department can offer you the following services:

- labelled, room-specific single packages
- labelled packages for each floor
- packing lists for each package in the local language with illustrations, including photos and article numbers

You can choose to receive partial deliveries at various deadlines of your choice, taking into account the transport times depending on your partners in the country in question.

This is not a standard offering, instead it is a service package tailored just for your needs. You make the demands and we arrange for them to be carried out!

The price for this service depends on the amount of packaging and of work involved. Your local Merten representative will be happy to help you with detailed planning.
